

SKIBI

SKIBI (aka SkibiDeJong) is a Luxembourgish rapper who has been active in the Hip Hop scene since 2015. He was first noticed by the local collective "Stoned Control" where he made his first experiences on stage. Since then he has entertained people on our local stages, at Hip Hop Jams or Läbbel Sessions, but also at various gigs abroad. As such, he is one of the most active live MCs in the country.

Amongst other things, he has released two independent projects: "BKR Vol.1" (2019) & "Cash Is Only Money" (2020). The second one was created in collaboration with Berlin artist Fatboy Klepto. He produced the two projects in Berlin where he lived for 4 years. The Berlin influence can be clearly heard.

Then, after a short break in Brussels and the release of the EP "Rien Qu'a Changé", which he recorded with the local French lyricist and producer William LX (ToutdroitduLux) in Amsterdam, Skibi started something new in his homeland.

Indeed, 2020 was the year that Skibi came back to Luxembourg. It was at this time that he, in collaboration with producer Crux Cutz, released his first studio album "Ze Spigé". It dropped in February 2021 and has several new & oldschool influences. The listener can clearly hear the fusion between SKIBI's lyrical skills and Crux Cutz's banging beat productions on "Ze Spigé"!

Amongst other things, SKIBI uses his crazy flow to describe and narrate his surroundings and everyday life. His method of embodying this through his own modern storytelling never disappoints - whether through your headphones or live on stage!
