MALLOWS

Pop - Punk since 2017

DESCRIPTION

Mallows is a 4-piece pop-punk band hailing from Luxembourg, known for their energetic and nostalgic 90's and early 00's influenced pop-punk sound.

In April 2018, Mallows released their first self-produced EP, marking the beginning of their official journey as a band. With their EP out, they hit the stage, performing at shows and festivals across the country, showcasing their high-energy performances and catchy pop-punk tunes.

Taking their musical journey further, Mallows entered the studio in October 2019 to record their sophomore EP titled "Ups and Downs." Working with Luxembourgish producer Tom Gatti at the Unison Studios, the EP was released in March 2020.

Mallows' music has struck a chord with audiences, and their hit single "Tailspin," released in January 2021, received significant recognition on national radio stations.

In October 2022, Mallows welcomed a new guitarist into their lineup, bringing fresh energy and ideas to the band. With this new addition, Mallows is eager to release new songs, building upon their established sound and captivating their audience with their infectious pop-punk melodies.

Mallows' dedication to their craft and their ability to evoke the spirit of 90's and early 00's pop-punk is what sets them apart. With their energetic live performances and a growing catalog of music, Mallows is poised to make a lasting impact on the pop-punk scene both in Luxembourg and beyond.
