ENTERTAINMENT

AEM is an electronic dream pop project started in 2018 by Luxembourg based singer/songwriter Ema. Influenced by all kinds of artists, genres and subgenres, **AEM** is most importantly always evolving and looking for something new. The debut single *City Ties* discusses living in an absent state of mind, by telling the story of someone overwhelmed by the pace of “the city” and being dragged along through time, dissociating from reality, forcing them to escape to another world. The dreamy vocals and child-like lyrics transport listeners into an exploration of the world around them through young, naive eyes. She always has the ability to enchant the crowds during her live performances!
