

Them Lights is a dark tunnel of 80s reminiscence flashes and modern electronica.

Multi-instrumentalist, producer, singer and songwriter Sacha Hanlet correlates in a wide range of genres from pulsating electronica, dark pop to soulful R' n' B.

Having toured the world as the drummer of the math-rock band Mutiny On The Bounty for almost two decades, it wasn't until 2017 that he started to produce his very own sounds and explore his eternal love for arpeggios, 80' s synthesizers and groove.

A series of singles leading to his debut EP and a first headline show are scheduled for 2022.
