

retro spective Quintet

The young quintet, formed by the four founding musicians and composers with their compositions and arrangements, has already returned from numerous concerts in Luxembourg and Germany. In January 2020, the recordings to their first EP called 'Retrospective To The Future' were made and are now available on all major streaming platforms. With Daniel Migliosi on the trumpet, Denis Ascani on the piano, Mathieu Clement on the drums, Etienne Grüness on the guitar and newly joined Jan Seeman on the bass, the quintet always tries to bring their music and their feelings closer to the audience. In addition to their studies at the universities of Cologne and Mannheim, the five musicians share the desire to continually enrich their playing with new challenges. Exchange, mutual progress and friendship come together in an expressive and interactive performance!
