

Risen from his love for the Hip Hop culture which he discovered in 1987 and his passion for vinyl, DJ PC has become a legend in the Luxembourgish Hip Hop scene! Since starting in 1995, he has performed with major acts such as Public Enemy, Master Ace & Marco Polo and Smif'N'Wessun and played in almost every club in Luxembourg.

With influences like DJ Premier, Pete Rock and Lord Finesse, you will automatically be brought back to the rough sounds of the 90's created with the help of his large collection of vinyl and samplers.

He has also collaborated with staple Luxembourgish acts, however, he considers himself as a "one man army" and is indeed a force to be reckoned with. As a live performer, he brings energy and good vibes!

If you want to listen to his music he recently released his single "Minett Groove", which can be found online on all streaming platforms!
