

V.I.C

ABOUT V.I.C

Rapper and vocalist V.I.C, largely recognized as the lead vocalist in the ska-reggae band Los Dueños and one of the founding members and rappers at Pachamama Family collective, has launched his solo career in 2015. After two EPs and two full-length albums with his respective music collectives, the time was right to produce his debut full-length solo album "Bic Up". The album is a production by The Fuza Beat Prod. featuring multiple guest appearances such as Skibi, Maka MC, Ragga and Corbi. The album was digitally released in 2021 via De Läbbel and re-released on physical format in 2022, combined with a sold out live release party at De Gudde Wëllen in Luxembourg city. His genre fits right in with the classic boom-bap hip hop genres from the 90s and early 2000's, that define the record label De Läbbel. Due to his prior experiences with Los Dueños and the Pachamama Family, V.I.C is a man of entertainment, strong performance and definitely knows what the crowd wants. If he is stopping by at a town near you, he is one of the acts you would not want to miss.
