

Power Trio from Luxembourg made up of:

- Baba Pintsch, Lead vocals and guitars,
- Louis Wright, Lead Vocals and Bass
- Nico Wege, Drums and vocals

SUPERDRIVE formed in November 2021 When Louis Wright who was the frontman for the Surf Cowboys got together with Baba Pintsch, the front man from the Michael Shepherd Band and the talented multi-instrumentalist Steve Schmit to form a power trio with solid roots in 70's and 80's rock but with a 21st century edge. Their debut album was written in a few months and then recorded in 3 days in the famous Holtz studios by Charles Stoltz. The first 2 singles "Going Down" and "After All of These Years" both got extensive play on the rock scene. Steve left the band and was replaced by the award winning Nico Wege

Regarding the recording process, Baba comments, "We wanted to make a rock record that you'd want to crank in your car and drive fast with the windows down and I think we accomplished that!". Louis adds, "We are all very proud of this album and are ecstatic the way it turned out...the songs, the tones and the performances. Recorded live, it sounds real, it is real, and truly represents the way our band sounds!"
